

Yazeed A. Aljohani

Fort Collins, CO 80521 | (970) 402-2509 | Yazeed21@colostate.edu

An Ecosystem Science and Sustainability major with an interest in the field of carbon management, while in school I have been involved in research projects on bat conservation and have worked on data collection and analysis. In professional settings, I bring qualities of analytical thinking in order to contribute to sustainability initiatives and ecological research. I seek to utilize my expertise in organizations focused on environmental sustainability and apply my core competencies which include:

- **data collection and analysis**
- **ecological research methods**
- **Science communication**
- **Fluency in English and Arabic**

Education

Colorado State University (CSU), Fort Collins, CO
Bachelor of Science: Ecosystem Sciences and Sustainability

January 2023 to May 2026
GPA 3.5

Tabuk University, Tabuk, Saudi Arabia
Medical Program (coursework)

August 2019 to May 2021

Environmental Research Project Experience

Skills for Undergraduate Participation in Ecological Research – CSU August 2024 to May 2025
